Battioni Pagani Pompe S.p.A. nasce come società di fatto nel 1953 producendo trattori, cisterne agricole, pompe rotative a palette, spandiliquame e successivamente caricatori idraulici, gru, benne e carrelli elevatori. Il 1964 è l'anno delle prime esportazioni con l'inserimento graduale di vari prodotti in alcuni importanti mercati esteri. Il forte sviluppo produttivo ha portato alla divisione delle produzioni: nel 1967 nasce B-P Battioni & Pagani carrelli elevatori che si trasferisce in un nuovo stabilimento. La società di fatto si trasforma nel 1984 in S.p.A. con il nome di Battioni Pagani Pompe S.p.A.. Il gruppo Battioni & Pagani oltre a Battioni Pagani Pompe S.p.A. include B-P Battioni & Pagani carrelli elevatori e una partecipazione nella fonderia Fondar S.p.A..

Battioni Pagani Pompe S.p.A. were founded in the 1953 firstly producing tractors, agricultural tanks, rotary blades pumps, manure spreaders and then hydraulic loaders, cranes, buckets and later-on-side loaders. In 1964 they started their first exportations with the gradual insertion of the various products on some important foreign markets. The big development induced the separation of the productions: in 1967 was founded the company B-P Battioni & Pagani side loaders which moved in a new plant. In 1984 the first company become a joint-stock company with the name of Battioni Pagani Pompe S.p.A.. The group Battioni Pagani includes both the companies Battioni Pagani Pompe S.p.A. and B-P Battioni & Pagani side loaders and a share of the foundry Fondar S.p.A..

Battioni Pagani Pompe S.p.A. nait comme société de fait en 1953 produisant tracteurs, citernes agricoles, pompes rotatives à palette, épandeurs de lisier et, par la suite, chargeurs hydrauliques, grus, bennes et plus tard des chariots élévateurs latéraux. 1964 est l'année des premières exportations avec l'introduction graduelle des différents produits sur quelques inportanz marchés étrangers. Le fort développement de la production a obligé à scinder les activités: en 1967 nait la société B-P Battioni & Pagani chariots élévateurs qui se déménage dans une nouvelle usine. La société de fait se transforme en 1984 en S.p.A. avec le nome de Battioni Pagani Pompe S.p.A.. Le groupe Battioni & Pagani comprend, outre Battioni Pagani Pompe S.p.A. et B-P Battioni & Pagani chariots élévateurs, une participation dans la fonderie Fondar S.p.A..

Die Battioni Pagani Pompe S.p.A. wurde im Jahre 1953 als Gesellschaft de facto gegründet und begann zunächst mit der Herstellung von Traktoren, Lamellendrehpumpen, Gülstreuern, daraufhin wurden auch hydraulische Ladegeräte, Kräne, Greifer und später dann Gabelstapler hergestellt. 1964 war das Jahr der ersten Exporte mit der schrittweisen Einführung verschiedenartiger Produkte auf einige der wichtigsten Auslandsmärkte. Die starke produktive Entwicklung hat zwangsweise zu einer Trennung der Produktionen geführt: im Jahre 1967 wurde die B-P Battioni & Pagani Gabelstapler gegründet, die daraufhin in eine neues Werk umzog. Die Gesellschaft de facto wurde im Jahre 1984 in eine AG unter dem Namen Battioni Pagani Pompe S.p.A. umgewandelt. Die Gruppe Battioni Pagani umfasst neben der Battioni Pagani Pompe S.p.A. auch die B-P Battioni & Pagani Gabelstapler sowie eine Beteiligung an der Gießerei Fondar S.p.A..
