

UC-EL1.25

1 ¼" Economy Launcher & Kits

Features & Benefits

- Capable of cleaning 1/8" through 1-1/4" hose, tube or pipe.
- Has a quarter turn locking ring for easy nozzle change and projectile loading.
- The UC-EL1.25 is constructed of durable brass and aluminum internals, strong plastic handle and anodized aluminum firing head and locking ring.
- Effortless to operate because of its simplistic design.
- Ideal for mobile and job site applications because of its size and portability.

Air Requirements

- 80 PSI minimum to 110 PSI maximum.
- 1/2" ID air hose to ensure correct SCFM requirements.
- 5 micron filter and regulator with gauge are strongly suggested!

Available Kits

- UC-EL7 Kit Launcher, 7 Hose Nozzles, Case.
- UC-EL7-DP Kit (shown) Launcher, 7 Hose Nozzles, Case, Catcher Bucket, Projectiles 7mm thru 40mm.
- Additional nozzles for JIC and tube applications are also available if required.
